Indoor Luxury OUTDOORS!

As time goes on the older outdoor showers constructed of wood are rotting and need to be replaced. A premium outdoor shower enclosure from Liquid Sunshine Outdoor Showers provides a turnkey solution to homeowners that want to retrofit an existing shower or install a new shower from scratch on an existing home or new construction project.

Pre-Assembled Doors and Unassembled Door Kits make these units completely customizable, which gives the homeowner or installer complete flexibility for the installation of the unit. Additionally, all Doors and Wall Panels can be trimmed down to accommodate any width.

Liquid Sunshine Shower Enclosures (Patent Pending) are made of Extruded Vinyl, Wood Grain Vinyl or Variegated Vinyl Materials or Wood Composite Material. They add value and beauty to any home while providing a place for you to rinse off the sand and clean up outside after a day at the beach.

BENEFITS

Outdoor Showers And You!

An outdoor shower can provide convenience as well as relaxation. There are few things more pleasurable, rejuvenating and fun than showering outside in nature. Outdoor showers are not just for your beach house. These practical showers are becoming popular for homes in all locations. Whether working hard in the garden on a hot day, or after a long day on the beach an outdoor shower is a perfect addition to any home or condo association.

Outdoor Showers And Parents

Homeowners with small children may also find the outdoor shower a great way to keep young children clean during warmer months when children get dirty while playing outdoors. Mom and Dad this is a great way to keep your bathroom clean and keep excess dirt out of the house!

Pool House Showers

An outdoor shower, with an enclosure large enough for swimmers to change is an added bonus as an outdoor changing area that allows swimmers the opportunity to shower, dry and dress out doors with privacy which can mean the end of wet foot prints leading into the house.

Outdoor Showers And Pet Owners

Dog owners and other large pet owners may find an outdoor shower a welcome addition to the home. Bathing an animal outdoors is easy with an enclosure large enough for both the pet and the owner.

FAQ

Can I Get A Roof With My Enclosure?

Absolutely. Our slanted roof design gives you privacy, ventilation, and natural sunlight.

Can I Get A Floor With My Enclosure?

Absolutely. We have Maintenance Free floor kits made of AZEK decking for your convenience.

Can I Attach Hooks, Towel Racks Or Soap Dishes To My Enclosure?

Absolutely you can. We recommend using high quality Stainless Steel screws to attach whatever you want to the vinyl materials.

Can I Install This Myself?

You sure can! This is a relatively simple and rewarding project for a DIY homeowner.

How Long Should It Take To Install The Enclosure?

Depending upon your application and skill level you should allow at least 4 hours for the simplest enclosure.

Do I Need A Drain?

This is up to you. If the water sheds away easily, and if you don't walk through mud when done showering then probably not. If you have any of these issues then you should consider some sort of a plumbing drain or French Drain type of system.

Do I Need A Permit For My Outside Shower?

You should check with your local construction office to be safe.

Is Shipping Available?

Yes. Your order can be shipped via FedEx or UPS.
